EDUCATION

09/2019 – 09/2024 Tehran, Iran

B.Sc. in Computer Engineering

Sharif University of Technology

- Overall grade: 18.66 / 20
- Bachelor thesis: "Generative Approach in Scalable Recommender Systems" (grade 19.8 / 20), supervised by Dr. Mohammad Hossein Rohban
- Compared ALS collaborative filtering with a decoder-based generative model for next-item recommendation in e-commerce; the generative model raised category-level Precision@1 from 0.12 to 0.37 and handled new products better
- Master's-level courses: Machine Learning; Advanced Concepts of Artificial Intelligence (Reinforcement Learning); Convex Optimization

09/2016 – 06/2019 Tehran, Iran

High School Diploma in Mathematics and Physics

Mandegar Alborz High School

- Overall grade: 19.68 / 20

AIMA at SemEval-2024 Task 10: History-based emotion recognition in Hindi-English code-mixed conversations. In *Proceedings of the 18th International Workshop on Semantic Evaluation (SemEval-2024)* (pp. 1704–1710). Association for Computational Linguistics. https://doi.org/10.18653/v1/2024.semeval-1.244

RESEARCH EXPERIENCE

10/2021 – 09/2022 Tehran, Iran

Research Assistant – Reinforcement Learning

Sharif University of Technology

- Researched meta-reinforcement learning in the lab of Dr. Mohammad Hossein Rohban: how agents can learn new tasks faster by reusing prior experience (including skill discovery)
- Implemented and compared selected methods

TEACHING EXPERIENCE

Sharif University of Technology — Tehran, Iran

Medical Image Analysis (Master's course)
Assisted Dr. Mohammad Hossein Rohban (about 30 students): co-designed and graded assignments; co-designed and graded the final project; led problem-solving sessions

Reinforcement Learning (Master's course)
Assisted Dr. Mohammad Hossein Rohban (about 30 students): co-designed and graded assignments; co-designed and graded the final project; led problem-solving sessions

Computer Simulation
Assisted Dr. Bardia Safaie (about 50 students): led problem-solving sessions; designed, graded and answered questions on assignments for part of the course; co-designed and co-graded the final project; co-wrote the course question bank

Compiler Design
Assisted Dr. Qasem Sani (about 50 students): responsible for designing, grading and answering questions on assignments for part of the course; helped evaluate the final course projects

Linear Algebra and Advanced Programming
Responsible for designing and grading assignments

PROFESSIONAL EXPERIENCE

04/2025 – 12/2025 — Tehran, Iran

Data Scientist (full-time)
Snapp (Idea Gozin Ertebatat Romak Co.)

- Built a retrieval-based system that suggests answers to about 3,000 driver support tickets per day
- Raised driver satisfaction from 20% to 28% by curating the knowledge base, tuning retrieval and evaluating answer quality
- Built an image-to-text pipeline that extracts structured text from scanned card documents

09/2024 – 03/2025 — Tehran, Iran

Machine Learning Engineer (full-time)
Yektanet (Noavaran Yekta Net Co.)

- Trained and deployed click-through and conversion prediction models on about 1 billion ad events per day
- Improved the click-through rate by about 6% and the conversion rate by about 8% through feature engineering, training pipelines and offline validation

10/2022 – 08/2024 — Tehran, Iran

Data Scientist Intern (part-time, alongside studies)
Digikala (Noavaran Fanavazeh)

- Developed personalized product recommendations for the homepage, from offline evaluation to iterative improvements
- Built semantic product search over more than 10 million products, using product embeddings trained with contrastive learning (CLIP-style)
- Implemented offline contextual bandits and analysed user behaviour to improve ranking

02/2021 – 10/2021 — Tehran, Iran

Software Engineering Intern
Yektanet (Noavaran Yekta Net Co.)

- Trained and deployed web-page classification models and prepared their training data (cleaning, labelling, feature extraction)

SELECTED PROJECTS

since 01/2026

Information aggregation system (independent project)
Built a LangGraph system that collects information with tools, then aggregates, validates and post-processes the results in modular, scenario-specific steps

2023

Recommendation engine with offline reinforcement learning (Reinforcement Learning course)
Designed a recommender system for personalized content using offline reinforcement learning

2022

Search engine for the Shahnameh (Information Retrieval course)
Implemented the full search pipeline and compared classical retrieval with embedding-based retrieval and re-ranking

TECHNICAL SKILLS

Programming: Python, C, C++, C#, Java, R, Scala, SQL

ML and data tools: PyTorch, TensorFlow, scikit-learn, NumPy, PySpark, LangChain, LangGraph

LANGUAGES

Mother tongue: Persian

	LISTENING	READING	SPOKEN PRODUCTION	SPOKEN INTERACTION	WRITING
English	**C1**	**C1**	**B2**	**B2**	**B2**

TOEFL iBT 93 / 120 (Reading 26, Listening 25, Speaking 22, Writing 20), December 2025

Levels: A1 and A2: Basic user · B1 and B2: Independent user · C1 and C2: Proficient user (Common European Framework of Reference for Languages)

HONORS AND AWARDS

2019 Ranked in the top 0.15% of the Iranian national university entrance exam (Konkur); admitted tuition-free to Sharif University of Technology

2018 Bronze medal, Iranian National Physics Olympiad
